

Mauritius, Seychelles, Indian Ocean Islands

Charity/ Organisation

Animo

Animo is a registered NGO that provides a haven for animals in need and serves as a valuable employer in the community. Animo does not receive funding from the government, and as a result, its ability to continue this vital work is entirely dependent on donations.

Mauritius has enacted legislation through the Finance Act, making it mandatory for profit-making entities to devote 2% of their profits to CSR activities to promote sustainable development. Contributing to Animo helps entities meet these regulations. There is also a tax benefit for those donating to a charity. All payments are receipted for transparency and audit purposes.
