Animo ~ our commitment to helping animals in need

On the 5th of September 2024, we had the privilege of visiting a local animal clinic and rehabilitation centre, Animo, as part of our ongoing corporate social responsibility initiatives.

The visit provided us with a deeper understanding of the challenges faced by the clinic and how our we might contribute to their impactful work.

The facility, which specializes in the rehabilitation of injured, abused, and abandoned animals, serves as a sanctuary for animals that would otherwise struggle to survive on their own.

We had the opportunity to meet with the dedicated team of veterinarians, volunteers, and support staff who work tirelessly to ensure the health and well-being of these animals. Their efforts span from routine care and medical treatment to the rehabilitation of animals with severe injuries, preparing them for potential adoption or re-release into the wild.

Through discussions with the centre's leadership, several key areas of need were identified. These include the provision of medical supplies, financial assistance for operating costs, and support for awareness campaigns aimed at encouraging responsible pet ownership and wildlife conservation.

We left inspired and determined to explore how our we can contribute—whether through financial support, volunteer efforts, or other forms of collaboration.

This visit reaffirmed our commitment to supporting causes that align with our values, and we look forward to presenting potential solutions to management for how we can extend our support to this vital cause.
