No Less Love

No Less Love was born out of Julia's pure love and passion for animals and witnessing the hardships, pain, and struggles of the animals in Molweni. She has been visiting Molweni Township since 2022, despite its reputation for danger, because no one else she knows is helping the animals there. Julia has faced death threats, been held at gunpoint, grabbed, and stopped a rape attempt, yet she remains committed to risking her life for these dogs.

Dogs sleep outside in the cold, without kennels, blankets, food, or water. Many suffer being beaten, stabbed, burnt, drowned, hanging, and terror. Lack of pet owner education and employment, leads to dogs not being sterilized or vaccinated, increasing the number of stray animals, disease, and death.
